OlyNation

OlyLife SK-M3 Shaken Massager

This device combines fabric components with RF technology, heat, and compression systems.

Material Breakdown

Main Unit	Plastic housing with internal RF components
Fabric Cover	Removable and washable
Extension Straps	Velcro textile straps

Fabric Cover Cleaning

Recommended method:

- Hand wash only
- Use mild detergent
- Water temperature below 30°C
- Air dry flat

Do not:

- Machine dry
- Use bleach
- Use fabric softener
- Iron the fabric

Excessive heat may warp the compression elasticity.

Device Body Cleaning

After each use:

- Turn off the device
- Wipe the surface using a dry microfiber cloth

If sweat is present:

- Use a slightly damp cloth
- Dry immediately

Never:

- Spray cleaner directly onto the device
- Submerge the device in water
- Use alcohol on the heating area

Strap Cleaning

- Wipe straps with a neutral cleaner
- Do not soak the straps
- Do not machine wash

Machine washing can degrade the Velcro quickly.

Device Longevity Guidelines

After each session:

- Allow the device to rest for 20 minutes
- Do not recharge while the device is extremely hot
- Fully recharge the battery if storing for long periods
