OlyNation

OlyLife Vitality Wand

This device operates using airflow and heating technology. Internal cleanliness is important to maintain performance.

Material Breakdown

Outer Shell	Plastic
Air Outlet	Heat-resistant plastic
Internal System	Fan-based airflow system

Daily Cleaning

- Turn the device off
- Allow the auto-clean cycle to finish
- Unplug the device

Cleaning Procedure:

- Wipe the exterior using a dry microfiber cloth

If necessary:

- Use a slightly damp cloth with clean water only
- Dry the device immediately

Air Outlet Care

Inspect the air outlet weekly for dust buildup.

Cleaning Methods:

- Use a soft dry brush
- Use compressed air with a light spray from a safe distance

Never:

- Insert objects into the air outlet
- Spray disinfectant into the vent
- Allow water to enter the air channel

Moisture inside the device may cause internal corrosion.

Professional Use Guidelines

Do not use the device in:

- Humid bathrooms
- Steam rooms
- Areas near essential oil diffusers

Oil vapor may accumulate on the heating element.
